SUMMARY

Software Engineer with 3 years of experience specializing in backend and full-stack development. Proficient in **Node.js**, **Express.js**, **NestJS**, **TypeScript**, and **JavaScript**, with a strong focus on **scalable architecture**, **design patterns**, and **SOLID principles**. Demonstrated expertise in **MongoDB**, **PostgreSQL**, and **Microsoft SQL Server**. Hands-on experience with **React**, **Angular**, and building SaaS products, e-commerce platforms, and HR solutions. Proven ability to optimize performance, improve code quality, and deliver impactful solutions.

TECHNICAL SKILLS

- **Languages**: JavaScript, TypeScript, C#, Python, SQL (PostgreSQL, Microsoft SQL Server), NoSQL (MongoDB), HTML, CSS
- **Frameworks**: Node.js, Express.js, NestJS, React.js, Angular, .NET, ASP.NET Core
- **Developer Tools**: Git/GitHub, AWS, Azure, Google Cloud Platform (GCP), Docker, Socket.io, Redux Toolkit, RTK Query
- **Familiar With**: Django, CI/CD (GitHub Actions, Azure DevOps), Jest, Material-UI, Tailwind CSS

EXPERIENCE

Raise Right Jun 2025 – Present
Full-Time – Node.js Developer *Cairo, Egypt · On-site*

- Contributed to edumarket.io, a product-based educational marketplace platform, building scalable backend services with NestJS and Node.js.
- Implemented modular APIs and optimized data access to enhance user and admin experience.

Apes Smart Solutions Feb 2025 – Dec 2025
Part-Time – Node.js Developer *Cairo, Egypt · Remote*

- Built backend services for Spark, a multi-category booking platform, and Views, a multilingual real estate platform, using NestJS and Node.js.
- Delivered features including real-time availability, notifications, and admin dashboards across multiple products.

Sarri Technology Oct 2023 – May 2025
Full-Time – MERN Stack Developer *Cairo, Egypt · On-site*

- Managed backend for e-commerce, HR, and social apps, improving reusability and building components for payment and notifications.
- Delivered social apps with seamless integration and developed a multi-tenant system for automated e-commerce and booking.
- Built a SaaS HR solution to manage teams and payroll, reducing costs through automation and real-time updates using WebSockets and Google Maps.

CustEx Aug 2023 – Nov 2023
Part-Time – Backend Developer *Santa Monica, CA, USA · Remote*

- Developed and optimized the backend for CustEx, ensuring scalability and smooth real-time interactions.
- Developed backend features for CustEx, enabling real-time voting for global users and promoting transparency and inclusivity.

PROJECTS

EduMarket 2025 – Present
Educational Marketplace Platform *NestJS, Node.js, TypeScript, MongoDB, Angular*

- A product-based educational marketplace connecting learners with courses, instructors, and resources through a unified storefront.
- Built scalable backend modules including a redesigned administration module (v2) and operational reporting, with optimized API performance.

Spark 2024 – Present
SaaS Platform *NestJS, Node.js, TypeScript, MongoDB, Socket.io*

- Contributed to backend development of a SaaS platform, delivering reliable API services and integrations supporting multi-feature workflows and scalability.

Views 2024 – Present
Property Booking Application *Node.js, Express.js, MongoDB, Socket.io, React*

- Developed backend services and APIs for a property booking platform supporting listings, reservations, search, and notifications for an end-to-end booking experience.

Jam3ty 2024 – Present
Learning Management System – Arab Open University *NestJS, Node.js, TypeScript, MongoDB, Angular*

- Developed backend modules and APIs for an LMS serving Arab Open University students, supporting courses, enrollments, content delivery, progress tracking, and assessments.

EDUCATION

Fayoum University Fayoum, EG
B.S. in Computer Science, Artificial Intelligence *Aug 2019 – June 2023*
