EXPERIENCE

Raise Right Jun 2025 - Present
Full-time - Full-Stack Developer *Cairo, Egypt · On-site*

- Full-stack work across **6 product areas**: EduMarket, partner services, B2B, Roli, Admin and Crew; Roli covers driver, supervisor, parent and partner-management experiences.
- Contributed to **58 NestJS modules**; under 300 concurrent test users, increased throughput **6.8x** (4.85 to 32.8 req/s), cut p95 latency from 60s to 9.9s and reduced HTTP failures from 79.5% to approximately 0%.
- Optimized PostgreSQL read paths with indexes, DataLoader and Redis; removed 41 circular dependencies and supported reliability with 3,000+ automated tests.

Apes Smart Solutions Feb 2025 - Dec 2025
Part-time - Full-Stack Developer *Remote*

- Delivered full-stack features for nutrition apps, Spark activity bookings and Views property/hospitality products, using hexagonal architecture, RabbitMQ, TypeORM/PostgreSQL and MongoDB audit records.
- Built services handling **2,000+ req/s at 99.9% uptime**, reduced synchronous blocking by approximately 70% and supported 1,000+ daily bookings.

Sarri Technology Oct 2023 - May 2025
Full-time - Full-Stack Developer (MERN) *Cairo, Egypt · On-site*

- Modernized frontend/backend workflows for a 10K-MAU application, reducing critical bugs by **40%** and API latency by **45%**; built multi-tenant commerce, booking and HR SaaS features.
- Built **40+ REST APIs** serving 5M+ daily requests at 99.99% uptime; released v2/v3 without downtime. Analytics processed 100M+ data points/month; accelerated delivery by 25% with an 8-person frontend team.

CustEx Aug 2023 - Nov 2023
Part-time - Full-Stack Developer *Santa Monica, CA · Remote*

- Built frontend/backend interaction and voting workflows handling **15K-20K messages/day** with under-150ms delivery; cut connection latency by 25% and achieved 99.7% connection success.
